Bob Burns Blinds Aussie Shield

Aussie Shield Doors are a new addition to the Inspire by Bob Burns Blinds range of screening options. Aussie Shield Doors not only secure your home but also provide a degree of privacy from people outside your home looking in. Aussie Shield doors provide security, privacy and strength, as well as being corrosion resistant and looking great.

Aussie Shield Design

Aussie Shield Doors utilise a strong (1.6mm thick) aluminium sheet that is perforated, and powder coated in Australia to exacting standards. This mesh works by limiting the field of vision for people on the outside looking in. Aussie Shield works if there is correct lighting allowing a person on the inside to see outside and not be seen from the visitor's side.

By using their unique Retention system which uses rivets into a frame with a covering strip to conceal the rivets. The resulting screen is strong, extremely resistant to corrosion and provides excellent clarity of vision from the inside looking out.

The Complete Range

Bob Burns Blinds and Inspire now offers the complete range of screening systems from our top of the range Invisi-Gard 316 Stainless Steel Security Doors, through to Alu-Gard, Federation, Cast Panels, Standard Diamond Grilles, Aussie Shield one-way vision security screen, fibreglass and aluminium insect screen and all the associated accessories. For a history of great service and quality-built products when considering an aluminium screen door system, there's only one place that has all the solutions - Bob Burns Blinds and Inspire.

Bushfire Prone Areas

Aussie Shield complies with the mesh aperture for screening of openable parts to doors and windows up to BAL-29 conditions.

Wide Product Range

Aussie Shield Security Doors are primarily designed for front door security and privacy. however, they are suitable for a wide range of residential applications including the following:

- Hinged Doors
- Sliding Doors
- Security Window Doors

Choice of Stylish Colours

All of our frames are available from your Aussie Shield fabricator in our standard colour selection as well as a full range of powder coated colours along with anodised finishes.

Custom Built

All Aussie Shield products are custom built by your local fabricator, made to measure to suit your exact requirements.
