Decoview is revolutionising the security screen industry by bringing together stunningly designed decorative laser cut panels with high level home security.

- Beautiful, Unique Designs
- Superior Air Flow
- Privacy and Security
- Incorporated Flyscreen
- Custom Sizes Made to Measure
- Australian Designed and Made
- Durable Aluminium Construction
- Quality Lock Components
- Extensive Range of Powder Coat Colours
- 10 Year Warranty

Thanks to the latest state of the art CNC laser cutting technology you can choose from numerous laser cut or perforated designs. Add security, privacy and looks to your home with the latest designer security screens.

Why stop at your front door? Decoview can also use the same unique system to fitout the rest of your house. Patio sliding doors, windows, privacy screens, basically anywhere you want a screen or security.

Security with style

DECOVIEW® Features:

Australian Made

Decoview is proudly Australian owned, made and manufactured. We like to keep local jobs and contribute to Australia's economy.

Intruder Proof

One of the market's strongest security doors with our patented clip system, riveted fastening and 3mm aluminium sheet construction.

Triple Lock Option

Decoview security screens are available with a triple lock kit option for added security. You can rest assured with Decoview.

Colour Choices

Decoview security screens come in a huge spectrum of colours, which are specially formulated to withstand the harsh Australian conditions.

Corrosion Free

Superior pre-treatment of metals before assembly means lowest risk of corrosion of any security screen.

Patented

Decoview's innovative patented clip fit extrusion system is incredibly strong and allows a range of panel thicknesses.

Stunning Designs

Transform your entry into an architectural artwork. With an ever expanding range there will be something to suit everyone.

Flyscreen

Say goodbye to insects and bugs! Every Decoview door comes with fibreglass fly mesh as standard.
